

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating ever since 1974, becoming the biggest independent spreader manufacturer around the globe. They are a devoted manufacturer of spreaders meant for a lot of different applications such as the handling of containers, swap bodies and trailers.

Engineering is done in house by using the newest CAD systems and FEM tools. The ELME business now employs over one hundred twenty five personnel. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-over the world.

The product collection of ELME includes lots of spreaders meant for various container and trailer handling operations. Several of their inventory comprise: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers as well as a wide range of additional parts.

Production and manufacturing of ELME products are established in highly automated purpose built factory. In the year 2008, they created one thousand one hundred fifty spreaders by using quality parts so as to guarantee reliability and high standards. Major features of ELME include design simplicity, market reaction and inventive modular spreader concept.
