Clark Totalift has 20 exclusive models of forklifts, with components covering more than 120,000 specialized components for all of its automated equipment. Your local Clark Seller is your total source for availability of all your components requirements provided by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The items warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Internationally, Clark has one of the most impressive dealer support networks. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the materials handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is currently a customary feature on every lift truck.

Clark has a relentless mission to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its production plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the extremely economical and beneficial structure of "Lean Manufacturing" for its assembly facilities and application of resources. This structure was established to acknowledge the most successful method of production facility stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to develop the effectiveness and brilliance of their products while minimizing costs. The new value engineering agenda combines progressive product improvement and provides improved consumer support and service within the industry.
