

Meritor Part

Meritor Part - The Meritor Business is a premier global supplier built upon 100 years of custom of service and quality. Meritor focuses on integrated systems together with several modules and parts to the original machine makers and aftermarket equipment within the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and believes that this particular energy contributes to their competitive advantage within the worldwide operations. The business values all their customers and wants to ensure their success while anticipating their various requirements. Meritor starts with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over 11,200 individuals, Meritor promotes collaboration and innovation amongst a team of experienced professionals.

By only hiring future focused individuals, Meritor strongly believes these top-caliber people will be able to rapidly get used to to changing surroundings and exhibit the performance and commitment needed to reach results in the competitive materials handling trade. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor offers all their staff various chances for professional and personal growth.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises drivelines, axles, suspension and braking systems intended for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is likewise responsible for supporting the needs of all their international engineering employees.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are located all around the world in 19 nations and in 5 different continents.

They have their supplier network that is specifically located to support the growth of the business. Every regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each aspect of the company. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is even included transactional Green Belts who make use of Six Sigma tools to business techniques and implement lean methods.
