

## Barrel Clamp

Barrel Clamps - Known as "Barrel Clamp", this particular hydraulic attachment is utilized on forklifts so as to compress items which you wish to transport with the forklift. Usually, they're used so as to paper rolls, barrels, and handle kegs, together with several barrel clamp designs having the ability to revolve the load. For instance, the rotate function enables a lift truck operator to slot in a vertically stored paper into the horizontal intake of a printing press.
