

Concrete Hopper

Concrete Hopper - This accessory is a self-dumping hopper which automatically triggers to unload as soon as bumper release contacts the side of a dumpster. When unloading is completed, the hopper goes back to a locked and upright position. This piece of equipment even comes together with a cable which enables operation from the seat of the forklift to be able to have the alternative of manually dumping the hopper. There is a locking chain provided so as to secure the hopper to the tine truck. This product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish in order to maintain durability.
